

Missouri Division of Behavioral Health

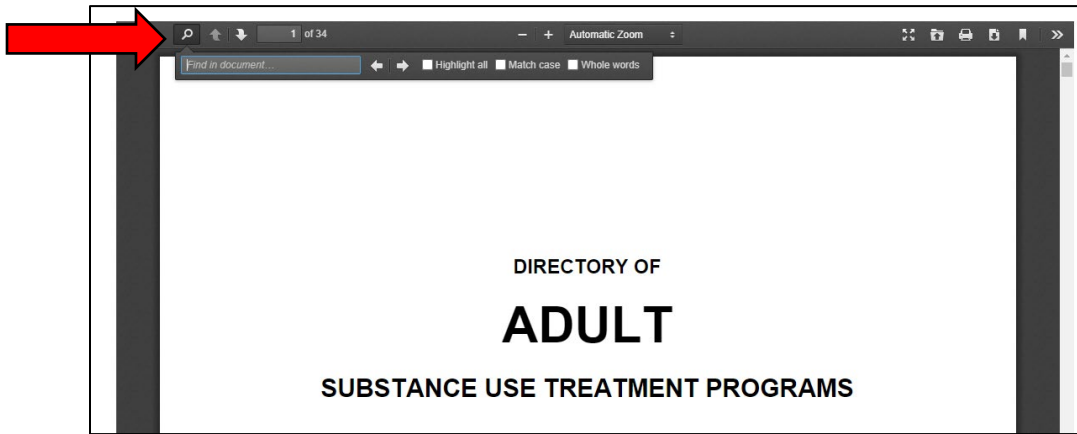

National Guard Initiative

The Division of Behavioral Health is collaborating with the Missouri National Guard to offer **substance use** consultation and evaluations, assessments, and treatment services at no cost to currently serving Missouri National Guard Service Members. This initiative applies to both Air and Army National Guard.

Steps to access services:

1. Find a DMH contracted provider using our provider directory

<https://dmh.mo.gov/media/pdf/directory-adult-substance-use-treatment-programs> Use the search option in the top left and enter your city or county.

2. Schedule an appointment with the provider.

3. When you show up for your appointment, **present your military identification card and explain that you are “currently serving in the National Guard and you are here for the no cost substance use services.”** If you have any health insurance, you will still provide it but there will be no copay.

Note: If you are being command referred for evaluation by the National Guard, please present:

- PC Referral Sheet, DA 4465 (Patient Intake Screening)
- DA 4466 (Patient Progress Report)
- DD 2870 (Authorization for Disclosure of Medical/Dental Information from the National Guard)
- Explain that you will need these forms for the National Guard.

If you have questions, need additional information, or are unable to reach a treatment provider, contact your Missouri National Guard Substance Use Program coordinator or Director of Psychological Health.

Services are supported through funding from the Missouri Department of Mental Health, Division of Behavioral Health; Substance Abuse and Mental Health Services Administration, Center for Substance Abuse Treatment Block Grant.
